

The best is now available from Sky Climber. The Compact series hoist available in three models and three load capacities; Compact 750 (lbs.) Compact 1000 (lbs.) and Compact 1250 (lbs.) A Compact for almost any application.

Depend on the Compact to operate in any work environment including commercial restoration, general building maintenance, window washing, caulking, sandblasting, tuck pointing, painting, inspections, off-shore oil rigs, paper mills, and other industrial plant maintenance requirements.

Call the professionals at Sky Climber and see how the new Compact Hoist will work for you. Every Compact Hoist comes complete with the Sky Lock III and is available in either electric or air power.

Compact Electric Hoist

Electric pendant lengths available from 3 ft. to 50+ ft., specify length when ordering.

Compact Air Hoist

The Compact Series Hoist:

- 20 years proven technology
- Fits through a small (18") opening for hard to reach places
- Two handles on all hoists for easy loading and mechanical maintenance
- Power indicator lights show power conditions and emergency stop status as standard equipment
- Optional hour meter
- Standard dual controls, hoist control or plug-in pendant on all 1000 & 1250 models
- Industry's best electric power-pak, draws fewer amps, eliminates power boosters in most situations; this saves you money
- Use of a planetary gear system, the most efficient gearbox in the industry
- Best warranty in the industry (36 months on the gearbox and 24 months all other).
